To Thee with firm aff - i - ance, Would — cleave from first to last;
But be it joy or sor - row, We — know it comes from Thee.

From e - vil and temp - ta - tion De - fend us through the night,
To Thee, through Je - sus' mer - it, For need - ful grace we come,
And noth - ing can take from us, Wher - e'er our steps may move,

And round our hab - i - ta - tion Be Thou a wall of light.
And trust that Thy good Spir - it Will guide us safe - ly home.
The staff of Thy sure prom - ise, The shield of Thy true love.
